SKILLS

Software: TypeScript, MySQL, Next.js, Frontend Frameworks, Prisma, Git, (*familiar*): C++, Python

Developer Tools: Visual Studio Code, MySQL Workbench, DataGrip, Prisma Studio, Postman

PROJECTS

Personal Website: darlegui.vercel.app

Comm App: (Next.js, TypeScript, TailwindCSS, PostgreSQL, Prisma) Apr-Sep 2024

- Led a team of 5 to develop a full-stack communication platform for managing servers and friends.
- Implemented NextAuth for secure authentication and bcrypt for password hashing.
- Integrated Cloudinary for images, Figma for design, and Postgres as the database.

Issue Tracker: (Next.js, TypeScript, Radix, MySQL, Prisma) Jan-Mar 2024

- Developed a full-stack, production-grade issue tracking app allowing users to manage issues.
- Built a secure dashboard with client-side validation and authentication.
- Maintained a clean, well-structured codebase aligned with industry best practices.

Game Hub: (React, TypeScript, Chakra UI, React Query, Zustand, Axios, React Router) Nov-Dec 2023

- Built a sleek game discovery app with React and modern libraries.
- Designed intuitive UI with infinite scroll, platform icons, and dark mode support.
- Integrated RAWG API for game data, enabling searches by platform and genre.

EMPLOYEMNT

Software Developer, Intern	Workforce Development	Apr-Aug 2024
----------------------------	-----------------------	--------------

- Gained experience in a collaborative environment, working with a team of 5 developers and enhancing my technical skills.
- Actively communicated with team members, contributed to bug fixes, optimized website performance, improved CSS responsiveness, and managed version control using GitHub.
- Completed 500+ hours of hands-on coding and project management training.
